

# Instructions to run the Pragmatrix flask app

- 1) Clone the master branch from the repository <https://github.com/rtapiaoregui/pragmatrix> to your computer.
- 2) Go to pragmatrix/context.py and modify common\_path, in line 16, to the local path where you have downloaded the code.
- 3) Download the Pragmatrix Data zip file from GDrive: <https://drive.google.com/file/d/1Yvd80brp-dsG9HCTjchWPP3gF9wg1xf8/view>
- 4) Copy the unzipped folder, 'Data', to the root folder in the repository. Thus, you should end up with 3 folders inside your repo: 'Data', 'Documentation' and 'pragmatrix'.
- 5) Run python pragmatrix/drunken.py
- 6) Your app is now live in (local IP):5000 - (To find your local IP, check <https://www.whatismybrowser.com/detect/what-is-my-local-ip-address>)
